NIFN OM Marshall Emm (SK)

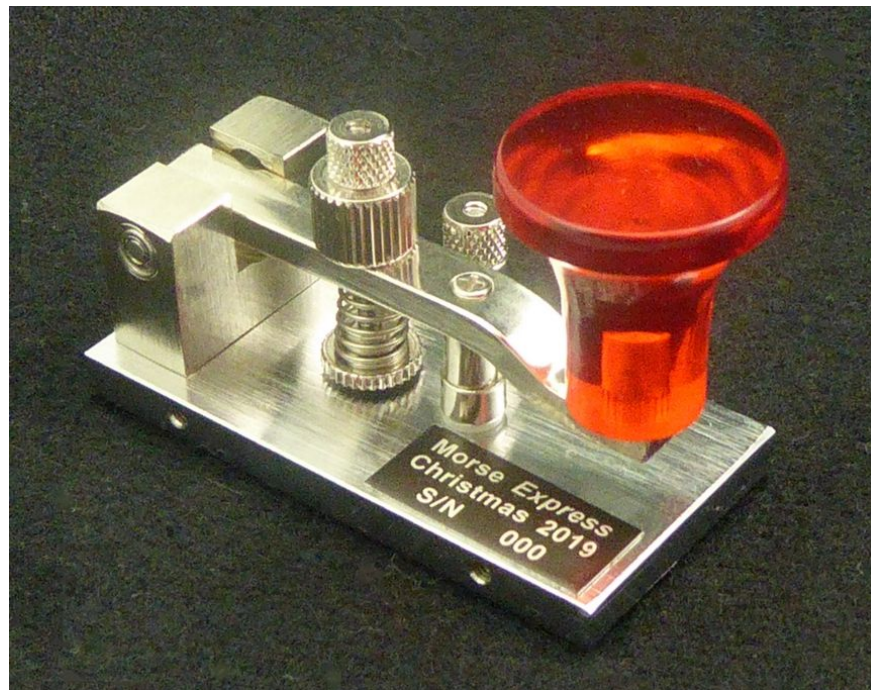

HK908DX The mechanical design has been simplified slightly, with a lot of attention to silencing the action. The oak base has been replaced with a large, heavy block of natural marble, which adds weight to the key and rigidity to the mechanism. The large "navy" knob with skirt provides for a comfortable grip, and the overall result is the possibility of hours of effortless sending. The last HK908DX in captivity was sold for \$400.
